- I. Welcome at 2:00 p.m. – Kristin did a brief review
- II. Student Focus Groups – Kristin

To share information and get feedback. Not to replace our surveys, an enhancement. SGA members will sit with students and talk with them about five specific questions. Kristin supplied the questionnaire with committee members. Shawna would like to share on media sites.

- III. Community Survey and Community Forum in May – Kristin

Our charge from Dr. Clark was to provide a recommendation about student housing for UW-Rock County campus. This charge now includes UW-Whitewater, our new collaborative partner. Date for the community forum will be Thursday, May 31, 2018. Invitations are being prepared for distribution.

- Yes, we recommend housing
- No, we don't recommend housing
- Options that would be offered.

Kristin wants to reach out to "neighborhood" members to get feedback prior to the community event. An on-line survey has been created, to encourage participation. Committee could draw boundaries on a map and distribute details about the survey in the area identified. What do we want to know? A list of seven questions have been created and Kristin shared the details on screen. Can we offer an option beyond on-line surveys, for those who don't have a home computer? Have students at a local store and survey as people walk through? Discussion about changing the questions occurred.

- IV. Review Housing Options –

What other opportunities off and around campus exist-discussion ensued about options.

- V. Adjourn at 3:35 p.m.
